

## 2/2-way Solenoid Valve for gases, DVGW approved

- Direct acting solenoid valve
- Switches without differential pressure
- Gauze filter on inlet
- Brass body

Type 0285 can be combined with...

**Type 2508**

Cable plug

**Type 1078**

Timer unit  
(only for AC version)

**Type 2511**

ASI cable plug

The direct acting plunger solenoid valve Type 0285 is normally closed by spring force. During switching the core of the seal is tightened against the spring force, and opens the valve. The inlet has a gauze filter fitted. The valve is delivered as standard with a bracket fitment. Type 0285 is best suited to flammable gases.
